

Policy on Anti -Biotics

Aim

To make sure all children are closely watched when on anti biotics.

Methods

Any child who has been prescribed anti-biotics **MUST NOT** attend the nursery until 24 hours have elapsed since the first dose was administered.

This is so the child can be monitored at home in case of an adverse reaction to the medication, like diarrhoea or an allergic reaction.

This is the same even if the child has had the medicine before.

Useful resources and websites

This policy was adopted by for Loseley Fields Children Centre.
